

Hungry Turtle - Game Storyline 1.0

This is a story of a turtle, '**phily**', who is always hungry and searching for food. He eats whatever comes in its way. Yes !! He eats everything.

But not everything of what he eats is safe for him. Some of the stuff is really healthy for him while some is can really kill him.

This game is about keeping phily alive by feeding him time to time and preventing him from eating anything which is harmful for him.

Ain't it simple ! Grab your points !!

But this is not everything about this game. There is more !! A twist !!!

There are different sharks and crocodiles who are hungry too. And they can eat 'phily' at any time, if not avoided. So you have to help phily find new paths within the waters to protect him from the predators. Ta..da !

Going forward, every minute phily starves his lifeline goes down. If he starves too long, he dies.

You loose points !! Looserrr !!!

As the game goes on, you can teach our lil phily few things like what he should eat ? what he should not eat ? , how to hide from the sharks ? and how to kill one , if anyways possible ?

Sometimes, when phily puts on some weight , his own folks, other turtles, might betray him and eat his food.

Enter the Bad guys !

Now your job is same, but your fight is not. Then how to tackle these new enemies ?

Want to know ... right ?

Coming soon !
